-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 06 October 2005.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.

DETAILED ACTION

Drawings

1. Figure 5 is objected to because reference character "19" has been used to designate both curves.
2. Figure 4 is objected to because curves 15-17 are too small to be legible.
3. The drawings are objected to because the claimed "spectral lines" are never labeled nor identified by a reference number.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New

Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

4. The disclosure is objected to because of the following informalities: The acronym "CF" is not defined (throughout specification).

Appropriate correction is required.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. **Claims 14-26 rejected** under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claim limitation "without causing decorrelation" in the independent claims 14 and 17 is indefinite. It is unclear if the decorrelation refers to decorrelation of the modulated pulse signal with respect to the unmodulated pulse signal, or decorrelation of the modulated or unmodulated pulse signal with respect to some other signal.

Art Unit: 3662

It is also unclear whether the claim limitation "without causing decorrelation" means without causing *any* degree of decorrelation at all, without causing a significant degree of decorrelation, or without causing some other degree of decorrelation.

The examiner will assume that the claim limitation "without causing decorrelation" means without causing any degree of decorrelation between the modulated and unmodulated pulse signals. As best understood by the examiner, claims 14-26 will be treated on the merits in this office action.

Allowable Subject Matter

7. **Claims 14-26** would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112 set forth in this Office action, such that the claim limitation "without causing decorrelation" in independent claims 14 and 17 is rewritten to describe modulation without causing any degree of decorrelation between the modulated and unmodulated pulse signals.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shelley Chen whose telephone number is (571) 270-1330. The examiner can normally be reached Mondays through Thursdays and on alternate Fridays, between 10:00 AM and 6:00 PM.

Art Unit: 3662

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas Tarcza can be reached at (571) 272-6979. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
